PERMISSION/CONSENT FORM 2016

Dear Parent/Guardians,

Often teachers require permission from parents/guardians for students to take part in –

- Local excursions within walking distance of the school. Your child/children will be supervised by an adult at all times.
- Photographs being taken for the local newspaper
- Photographs being published in the school newsletter and school website.
  - We often take photos of our award winners for the school newsletter which is posted on our website. Students may be also be photographed in the process of daily school activities and posted on our website. Photos published online will contain first names only and will not include any identifying information.
- Photographs taken for displaying around the school/home groups etc.
- The ROSE (Responsive Organised Sensory Environment) is a sensory room. Sensory rooms are specifically designed environments which create a wide range of sensory experiences. They provide a safe, non-threatening environment in order to calm or stimulate children. The ROSE is never used as a time out room for the purpose of behaviour management. Your child/children may have an opportunity to attend the ROSE at various times throughout the year to participate in peer support.
- Viewing of PG rated movies. Occasionally teachers may wish to show PG rated movies, if so you will be notified of the movie at the time and will have the opportunity to opt out.

Please write your child/children’s name below and tick the boxes if you consent to each of the areas listed above.

Childs Name: _____________________________________________ Class: _________________
